

Veinlite®

Easily Locate Hard to Access Veins

NEO®

PEDI2®

EMS PRO®

LEDX®

LED+®

Veinlite's® unique C-shaped design stretches the skin for easy needle insertion, prevents veins rolling and results in fewer IV access failures. Using Veinlite® saves time, avoids repeated needle sticks, decreases patient pain and anxiety, and reduces wasted IV supplies. Invaluable for vein access.

Easily Locate Hard to Access Veins

Veinlite®

Proven Veinlite® Technology and the unique C-shaped design helps to secure the vein, provides traction on the skin and facilitates easy needle insertion.

Clinically Proven Technology in a randomized study of 240 patients at *The Children's Hospital Boston*, Veinlite® was found to be significantly better at first attempt in IV placement than standard of care in the Pediatric Emergency Department.
